

Google Ads Practice Campaign Report

Campaign Title: Google Ads Practice Campaign for CatalystX – Startup Consulting Services

Submitted By: Riya Pawar

Course: Digital Marketing Internship

Organization: Unified Mentors

Platform: Google Ads

Campaign Type: Search Campaign

Campaign Status: Practice Campaign (Not Launched)

Introduction

The objective of this capstone project was to gain practical experience in creating and managing a Google Ads campaign for an imaginary business. The selected business, CatalystX, is a fictional startup consulting company that provides business strategy, digital marketing, startup mentoring, and growth consulting services to entrepreneurs and small businesses.

Since this was a practice campaign, the advertisement was fully configured in Google Ads without adding payment information or launching the campaign. This allowed hands-on learning while avoiding advertising costs.

Business Description

CatalystX helps entrepreneurs transform innovative ideas into successful businesses through expert consulting, digital marketing strategies, business planning, and startup growth support. The company focuses on helping startups build strong online visibility, generate leads, and accelerate business growth.

Target Audience

- Entrepreneurs
- Startup founders
- Small business owners
- Students planning startups
- Freelancers
- Business professionals

Location: India

Language: English

Age Group: 18–45 Year

Campaign Objectives

- Increase awareness of CatalystX services
- Generate consultation requests
- Drive quality website traffic
- Encourage contact form submissions
- Improve online visibility

Why These Objectives Were Chosen

Lead generation was selected because consulting businesses depend on qualified inquiries rather than direct online sales. The campaign was designed to attract users actively searching for startup consulting and business growth services.

Target CPA: ₹500

Challenges Faced

1. Payment information required before launch.
2. No permanent public Google Ads sharing link.
3. Character limits while creating ad assets.
4. Sitelink setup for a single-page website.

What I Learned

This project improved my understanding of Google Search Campaigns, keyword planning, bid strategies, responsive search ads, audience targeting, Google AI asset optimization, budgeting, and campaign planning without running a live campaign.

Conclusion

The CatalystX Google Ads Practice Campaign successfully demonstrated the complete process of planning and configuring a professional Google Search campaign. Although it was not launched, all major campaign components were completed, providing valuable practical experience in Google Ads.
